The scholarship candidates on the reserve list can receive an EM scholarship only in case of withdrawal of a student from the main list. The replacement of a "main list" student by a "reserve list" can be made only if s/he is replaced by the first eligible candidate on the reserve list.

In this particular case, attention should be paid to the EMJMD condition concerning the nationality of the reserve list candidate and to the rule regarding the presence of a maximum of two nationals from the same country among the scholarship holders for a given category of students (Programme / Partner Country). In this case (i.e. there are already two other students with the same nationality on the main list), the consortium will have to take the next eligible candidate respecting its ranking list.

The main and reserve list were established at the meeting of the members of the selection committee. Both lists will be updated after the selected applicants accept or decline our scholarship offer.
